

BIOGRAPHICAL SKETCH

Let Mon Lee

Since completing the Planning Associate Program in July 1985, I have been working as a Planning Program Manager (NAD, SAD, NWD, POD, and SPD) in the Planning and Policy Division and as the MSC Support Team Leader – NAD in the Program Management Division, Directorate of Civil Works, Headquarters (HQUSACE). I am currently assigned to the Policy and Planning Division of the Civil Works Directorate. Since January 2004, I have been a Water Resources Policy Advisor working for the Senate Environmental Public Works Committee. My principal responsibility is support the Senate in the development of the Water Resources Development Act.

My career with the Corps started in the New York District in 1978. I used to walk to work and be the last one into the office. Boy that was sure nice! After I fell into a manhole at Pease Air Force Base, the New York District Engineer took me off the Junior Engineer Trainee Program, and assigned me as study manager with the Passaic River Study Group. My career as a Corps planner was started by the ruin the district's safety record.

Born in Canton, China, my family immigrated to America in 1963. Raised in New York City, I attended Columbia University and earned a BSCE in 1977. While working for the Corps, I attended New York Polytechnic Institute, and earned a MSCE in 1983. I am married and my wife and I have four children, ranging in age from 20 to 26. With the kids growing up and no longer needing me to run their lives, I have begun to explore alternate activities to fill my spare time. On top of the list is opening a video rental shop in New York's Chinatown, renting illegal Chinese soap opera, filling immigration paper for a fee, and maybe a couple of Mahjong tables in the back. The kids have already told me they will not be seen with me in public if I do that, so I am also considering being a greeter at Wal-Mart. Always ready to serve.
