About ASBPA:

Founded in 1926, the ASBPA represents the scientific, technical and political interests along the coast in an effort to shape national research and policy concerning shore and beach management and restoration. The group strives to engage a factual debate on coastal issues and economics that will foster sound, far-sighted and economical development and preservation of our shores and beaches; thereby aiding in placing their benefits within the reach of the largest possible number of people in accordance with the ideals of a democratic nation.
